

# MORNING STAR CONFERENCE

## Politics after Blair

*Saturday June 16 2007*

*(full details overleaf)*

The need to identify a coherent strategy for change is becoming ever more urgent. Such a strategy can best be brought about through discussion among the widest possible sections of our movement, bringing together many delegates from bona fide trade union, labour movement and progressive organisations.

The role of the Morning Star as the only socialist daily newspaper in the English language worldwide is vital. The Conference will provide a platform to formulate the alternative strategies and policies required to rid ourselves of the scourge of neoliberalism — and to launch the fightback!

Complete and return the section printed below.
